# **IKBKE influences endometrial cancer growth and increases progesterin resistance [Retraction]**

Wang JH, Kong XC. *American Journal of Clinical and Experimental Obstetrics and Gynecology*. 2024;10:11-20.

We've rechecked the lab records and raw data of this article to make sure of its reproducibility and reliability recently. Unfortunately, we did find some problems in the process. We found the method of statistical analysis was mistaken. For data from continuous time points, the repeated measures ANOVA with an appropriate post hoc test should be used. For the scientific

rigor of study, we think this article is not suitable for publication. We want to retract this paper in *American Journal of Clinical and Experimental Obstetrics and Gynecology* and all authors approve to retract this paper. We sincerely apologize for any inconvenience that might result from the retraction of this article.
