As our study involved the pancreatic cancer cell lines SW1990 (pancreatic cancer) and AsPC-1 (pancreatic ductal adenocarcinoma), we found in our further analyses that the statistical results obtained using the SW1990 cell line

were inconsistent with those of AsPC-1, and that it was not possible to draw conclusions consistent with the objectives of this study. We have decided to retract this article due to the lack of rigour of the original findings, which may not be applicable to our research topic. We sincerely apologize for any inconvenience that might result from the retraction of this article.
