# **Long noncoding RNA NEAT1 promotes the metastasis of osteosarcoma via interaction with the G9a-DNMT1-Snail complex [Retraction]**

Li Y, Cheng C. *American Journal of Cancer Research*. 2018;8:81-90.

In the paper, a potential issue regarding data integrity has been identified. Specifically, Figure 2B and 2D have been used in multiple unrelat-

ed publications. As the authors have not responded to this issue, an editorial retraction has been initiated.
