microRNA-532 suppresses the PI3K/Akt signaling pathway to inhibit colorectal cancer progression by directly targeting IGF-1R [Retraction]

Song Y, Zhao Y, Ding XF, Wang XD. *American Journal of Cancer Research*. 2018;8:435-449.

In this article, we recently found that the unreproducible of regulatory actions of miR-532 on the apoptosis of colorectal cancer. For the sake

of scientific rigor, we think it is most appropriate to retract the manuscript. All authors agree to retract the manuscript.
