Intensive Care Unit, Zhejiang Hospital, Hangzhou 310000, Zhejiang, China

Received April 21, 2026; Accepted July 28, 2026; September 15, 2026; Published September 30, 2026

For this article's affiliation, we realized that we mistakenly used an incorrect affiliation: "Affiliated Zhejiang Hospital, Zhejiang University School of Medicine". We found that "Affiliated Zhejiang Hospital, Zhejiang University School of Medicine" and "Zhejiang Hospital" are actually different names for the same institution. In accordance with the authorship regulations for hospital papers, the results of this article do not belong to the research achievements of graduate supervisors or senior university teachers at Zhejiang University, nor are they based on or jointly applied for major national or provincial research projects by Zhejiang University. Therefore, the article did not meet the condi-

tions for authorship under "Affiliated Zhejiang Hospital, Zhejiang University School of Medicine". In accordance with relevant regulations, and except under specific circumstances, the institutional affiliation has been revised to "Zhejiang Hospital". We apologize for this oversight and the additional work it imposed on the journal's editorial staff.
