Received October 9, 2020; Accepted October 11, 2020; Epub December 15, 2020; Published December 30, 2020

In this article, the word “miRNA” is wrong and should be changed to “mRNA”, namely, the abbreviation of “messenger RNA”. miRNA is usually known as the abbreviation of micro RNA. There are 24 spelling mistakes in the whole manuscript and we have made corresponding modifications under the “track changes” mode. We express regret for this confusion. It is an important issue, so we therefore request that you publish the erratum to reflect this change.
