# **Monotropein accelerates chondrocyte progression in osteoarthritis by alleviating TNF- $\alpha$ induced inflammation through regulation of MAPK/NF- $\kappa$ B signaling pathway [Retraction]**

Ou L, Gao F, Li M, Wei PF. *International Journal of Clinical and Experimental Medicine*. 2020;13:417-428.

In this article, the authors found that some experimental results were inconsistent with the published results after continuing their relevant

experiments. In order to ensure the accuracy of the experimental results, the authors hope to verify the results through more experiments. Therefore, the authors of this article have applied to retract this article.
