

Retraction

Changes in oxidative stress indices in sulfur mustard (1LD50)-induced pulmonary injuries via different routes [Retraction]

Hu XX, Yu D, Xie JW, Zhu XJ, Zhong YX. *International Journal of Clinical and Experimental Medicine*. 2018;11:11593-11605.

The retraction of this manuscript is based upon a potential overlap of figures with another manuscript from our research group, of which that other submission is formerly under review in another journal. As a result, the hospital requested the retraction of this manuscript. No errors occurred in the data or figure; it was sim-

ply a logistic mistake. We sincerely apologize for any inconvenience that this retraction may cause to the editorial team and reviewers. We greatly appreciate the time and effort invested in processing our manuscript and remain open to addressing any additional requirements to complete this process. All authors have been informed of this retraction request and unanimously agree to its submission.
