MiR-146a-5p targeting TRAF6 in HCC

Figure 5. Effect of miR-146a-5p and TRAF6 on cell growth and apoptosis using Hoechst 33342/PI fluorescent staining. HepG2 cells were transfected with different agents for 10 days. (A) mock control, (B) negative mimic, (C) miR-146a-5p mimic, (D) negative siRNA, (E) TRAF6 siRNA.
