Received March 5, 2026; Accepted May 20, 2026; Epub August 25, 2026; Published August 30, 2026

In this article, an error has been found in **Figure 2. Figure 2A**, P5 CK7 immunostaining and **Figure 2B**, P5 H&E were erroneously labelled as being P5 instead of P1. The immunostaining and H&E staining were redone, and the figures have been replaced with the correct images. The legend of **Figure 2** has been very slightly modified. The corrections made in this new **Figure 2** do not affect the interpretation of results and final conclusions. The authors

apologize for this error and have published this Erratum to reflect this correction.

**Address correspondence to:** Dr. Philippe Bertheau, AP-HP-Hôpital Saint-Louis, Laboratoire de Pathologie, 1 avenue Claude Vellefaux, F-75010 Paris, France. Tel: +33-142494135; Fax: +33-142494922; E-mail: philippe.bertheau@sls.aphp.fr

**Figure 2.** Morphological characterisation at P0 and subsequent passages. Histological features and CK7 immuno-histochemistry for two RCC at P0, P1 and P5 (or P6 for K8-614 H&E). No change was observed for CK7 expression for K9-162 xenograft (A). CK7 was negative at P0 and became positive at P1 for K8-164 xenograft (B). Scale bar = 50  $\mu$ m.
